The Cost of Attendance (COA) for school and personal expenses is determined annually by the Office of Scholarships & Financial Aid and is based on the average cost a student incurs each semester. Grant money is not set aside for these requests. Most COA adjustments only result in increased loan eligibility. If you have remaining Stafford eligibility, those will be offered. You may also apply for alternative loans through a private lender such as a bank. You must submit your application by the applicable deadline. Please contact our office for more information regarding STARF at 409-250-935J or 935J-30.337.
